

## 7.2 Best Practices

### 7.2.1 Title of The Practice: Awareness of career opportunities

The purpose of education is to explore and develop potential of individuals so that they may recognise their own attributes. Students need career guidance to explore and plan for future career options based on their interest, skills and values. Students need a guidance programme to enhance linkage of academics and career preparation and management. Career counselling is the dire need of students. Our college started this practice to help students to succeed in the future. Our college has a career and counselling cell. Two senior teachers are members of this cell. They guide and counsel students about various career options available from time to time through Seminar/lectures.

Objectives of the practice.

- To make students aware about various career options and competitive exams.
- To make students adaptable to changes as per requirement of the time.
- To utilize human resources optimally.
- To enhance morale of students.

Some initiatives taken by institution in this regard

1. Students visit to **Employment and industry bureau on 29.04.2022**
2. Online workshop entitled "**creating interest in mathematics through different strategies**" on **September 01.2021**. Dr. Gurjot Singh (Educator at school of Education) was the chief guest on this occasion. He motivated students towards subject like Mathematics.

Title of the practice: Strengthening Ties with community

A good education system produce young people with a positive sense of self concept, sound emotional well being. These young people will be able to form healthy, positive relationship with their parents, family members and rest of their community members. The institution has an active NSS department that is being managed by a senior faculty member.

Objectives of the practice

- To provide the partnership between institution and community.
- To enhance learning opportunities by providing students with resources, experience and environment.
- To create a sense of responsibility towards the community.

Initiatives taken by institution :

- **Tree plantation on 07.08.2021**
- **Swachhata Abhiyan on 02.11.2021**
- **Awareness campaign on 12.10.2021** for making community aware about harmful effects of stubble burning.

Impact of practice:

- Healthy relationship between institution and community.
- Appreciation of institution by community.
- Focus on quality activities.

Resources required: following resources would help us perform this duty in more effective way:

- Internal evaluation of program is required
- More funds are required.
- Developing a process for involving the community in educational planning and decision making.
